“ It has been a long time since I last saw Annie and I now wish it had  
not been so long ago.. Some of my most found memories was of  
visiting with Aunt Bertha, Annie and Mary. I always felt closer to  
Annie and Mary than some of my other first cusons because we  
visited with them more often. I think Aunt Bertha was a mother  
figure to my mother since my mother never knew her own mother.  
Even after Annie and Mary were grown they visited mother often  
and I really appreciated how much they cared about  
her.###imported-begin##Evelyn Rainey Sims###imported-end##

“ After 92 years, the thread has finally been broken separating the  
Sellar's girls on this earthly realm. Because of Mary and Margaret's  
poor health, they will forever believe that she is still here with them.  
They will all soon be together again with their Mom and Dad and all  
their beloved family and friends that have gone on before them.  
Remember the remaining two "girls" in your prayers as you  
remember "Aunt Nannie" with love and fond  
remembrances.###imported-begin##Mary Gowan###imported-end##
