“ I knew Barbara when she was Barbara Solesbee. Her husband built my house and I became friends with her. She was in nursing school at the time. I was very interested in medical things and she encouraged me to go to nursing school. I did, graduated near the top of my class, and had a productive nursing career lasting many years. I believe I helped many people over the course of my career, which Barbara helped to launch. I will always be grateful to her for the pivotal role she played in my life. I'll always remember what an upbeat, energetic person she was. My deepest condolences to her family. I know she will be missed.
