“ *Della was a great lab supervisor! She always had her employee's best interest at heart. She volunteered Chuck to install my gas dryer when I couldn't afford the high price " professionals". We would transport Della to the lab on snow days and she would have us out to her lovely home for Christmas parties. We were like a family and I enjoyed working for her for 13 years at St. Francis! I know she will be so happy to be re- united with her beloved Chuck!*
