“ I worked with Dewitt at the STJ Sealed Air plant. I've worked for several plant managers and found Dewitt to be one of the best. He and I had many things in common and spent countless hours talking about small town living, cars, & dirt bikes. I'm sad for his family as no one should lose a father and husband so young. We will continue praying for peace and healing for all.

“ Dewitt was our plant manager in St Joseph Mo for a while. He was a very nice man and a great leader. Dewitt and my husband would talk about farming and logging at our Company dinners. My prayers go out to his family. He will be missed by many.

“ Dewitt and I started working together in 2004 when I facilitated team training for the Cryovac facility in Cedar Rapids, IA. We developed a professional relationship built on mutual trust, respect and a belief that people are good and, with the proper support and encouragement, we can all become the best versions of ourselves. He trusted me with the hearts and minds of so many of his team members and leaders (Cedar Rapids, IA; St. Joseph, MO and Simpsonville, SC). I met so many thoughtful, caring, friendly people. Our passion for high performance work cultures helped us through ups and downs, along with some missteps along the way. We learned from our mistakes and never lost faith that people want/need to be involved and have a sense of ownership in their work lives. Dewitt knew the value of relationships and the power of teamwork. I was so blessed to have known him and worked with him for seventeen years. His authentic leadership and focus on win-win outcomes allowed him to accomplish so much. The measure of real team success is when the people around you make you better. Dewitt did that for me and I will be forever grateful.

“ After working with Dewitt for many years, I recall a special day when we both road together to our TX plant. We were able to spend several quality hours getting to know each other better. Our relationship continued to grow from there. He will be missed.
