CV

“ Don Parker will truly be missed by all at Americraft, Inc. He was a dedicated employee for 30 years, an exceptional craftsman and loved by all who worked with him. He always had a joke or two at the ready to brighten your day. Mr. Parker had a skill that he loved, hand turning thousands upon thousands of table legs and pedestals on a wood lathe. With the mind of a true woodworker, he could figure out how to build the most complicated piece of custom furniture from just a picture or sketch, an example of true American ingenuity. His work can be found in many homes across this nation.
