“ I could never have thanked you enough for providing me with such wonderful glimmering childhood memories. Loving me as a little girl, and complimenting me as new mother when I couldn't believe that it was possible to be anything. I was always thought of by you, and you took care of every single person in your life even while facing adversity of your own. Your relationship with my uncle was such an incredible model for me, what it's like to truly be inseparable for life. My mom absolutely adored you along with all of our family members. You allowed so many of my friends to be a part of our holidays. I will always remember you as a woman with a heart of gold. Head strong, determined, motivated by love. The world will stop turning while we mourn the loss of you. God rest your soul, Tia Donna. May he bless you with a pain free, happy existence moving forward in the next life. The best advice you and uncle David ever gave me when was to never go to bed mad at the one you love, to stand by each other through the hardest of times. I have no doubt that you are rejoicing being next to Uncle David again. We love you so much. Thank you for everything you have done for my family. No words put together in any way could ever truly describe the impact you've had on all of our lives.

DH

Terry, Pat, and Lesley, I was in disbelief as I read the Journal entry saying Donna has passed. When I was hired at NHC in 1994, the DON put me with Donna as my mentor to show me the ropes. We made an instant connection and had many conversations about our lives and the many similar experiences we had had. That friendship continued after I retired in 2010 and we would talk or text very frequently. When she called me to tell me about her cancer diagnosis, and the type they thought it was, I knew what she was facing because I had the same type sarcoma 2 years ago. We talked about depending on God, no matter what, and she knew He was her stronghold. I don't know why God called her home now, but He is a perfect God. Although my heart is hurting so badly, I know she is with David and she wouldn't have it any other way. I'm in constant prayer for all of the family. There will be such a void, but we will see her again. God bless you all. Doris Howell
