“ I am so glad we connected and were so much in sync our last couple of months. At times our relationship was rocky, but from the beginning you were my brother that I adored. In our emails of the past two and a half years we talked about our shared childhood and what our parents meant for us, getting a lot of our own questions answered and issues resolved for each other. You gave to me for the future the tools I need to carry on without you ever again in body but with me forever in spirit. There is no one on earth who could take your place, as you were always a very special, unique, and wonderful human being, though it took me long enough to realize it. According to what you and I believe, we will see each other again one day. I will sorely miss our email correspondences. I will miss our conversations, as I doubt I could synch with another person on this earth as well as you and I did. It felt to me as if the only people closer to us respectively were Joleen and Robbie. :) I will always have our emails of the past 2 1/2 years. I can't thank God enough for having made you such a special part of my life.##imported-begin##Ruthe##imported-end##
