“ Dr. Owen was one of the best professors that I had over the period of 5 years while at Greenville Tech. and USC. He and I developed a great friendship and I really learned a lot while he taught both semesters of anatomy and physiology. The world is definitely a better place today because of Dr. Owen. I used the information that he taught me every day in my career.

“ Joe I'm so sorry. It's so hard when a parent passes. You are in my prayers. I had your Dad for a class at G'ville Tec. He was a wonderful teacher.
