“ Thinking of Judy today as I walk through my house. I see many items that she sent to me. Since she was such a thoughtful person, I would often get a text from her stating that Amazon would soon deliver a surprise... She enjoyed spreading JOY. Love and miss her.

“ Judy, my sister was an amazing woman!! She was kind, generous, and was talented in so many ways!! She was usually on the quiet side and did not seem too courageous until one day she decided to be a PILOT and that she did and did it well. We were so excited for her especially when that meant that I was able to fly with her and George to the Bahamas. We had many great fun times together over the years. Judy loved to make jewelry, and she freely gave her beautiful items to friends and family. Making flower arrangements was another craft that she enjoyed. Shoes and more shoes were sure to fill her closet. In the past several years we lived several hours apart and did not have to opportunity to visit in person, however we talked several times per week. Judy loved telling me about her family and was excited about the upcoming great-grandchild, without fail she would ask about my family and was always sincerely interested in all of us. As her health failed, she never complained but always hoped for the best and continued to stay as independent as possible and asked for very little help. She was amazing and I really miss sitting on back porch and talking to her on the phone. I will cherish the memories of the good times.

“ *Judy was my sister for 83 years. We were friends also. We shared fun times and sad times. I would love to call her and let her know how I feel about her leaving us. She will be so missed. She will always have a big place in my heart.*

“ Aunt Judy lived a well traveled exciting life. I remember as a kid listening to her and long time boyfriend George tell stories of their trips and vacations. Back before smartphones, listening to Aunt Judy talk about exotic places they visited was like getting a Google review with all kinds of funny and interesting details. Aunt Judy was the first women pilot I ever knew and at one point she flew around the Caribbean regularly with George. She was also known to be lucky on the slot machines which she loved to play. But as exciting as her life was in her youth, her greatest legacy was her two kids Troy and Teresa. Rest in peace Aunt Judy.

“ I can remember when Judy received her Pilot's license. The whole family was really proud of her. We were close playmates in our younger years in NC; however, her Father's job transferred them to West Palm Beach where they became true Floridians. May she rest in Peace.

“ God Bless Judy, first cousin. Haven't seen her in a few years, but have fond memories of we were together especially during our more youthful days. May she rest in peace.
