“ *Dear Julie and Joel,*

Just wanted to convey to you both how sorry I am to hear of your mom's passing. She was one of the very first people I met after moving to Big Rapids. For many years we bowled and partied every Wednesday night. It was the girls night out and we made the most of it for sure. Judy had the most infectious laugh and I will always remember her for that and for being my friend. I will miss her and her visits back to B.R. every summer. She was the reason we would all get together and have lunch. She was our glue that kept the old gang still in touch.

“ To the Family
It has been a good many years since I have seen Judy. I first knew here in Toledo when she and Jerry were involved in a business I was also involved in on Sylvania Avenue. I beleive it was in the late seventies or early eightys when I strolled into Wrights Bakery in Big Rapids and much to my surprise there sat Judy. We had a great talk . Just recently I tried to locate her and when I picked up a copy of the Pioneer I was very sorry to learn that she had left us. She had a great personality and a lot of genuine care and respect for others. She will be sadly missed in this world.###imported-begin###Lori Duffing###imported-end##

“ One of my earliest memories of my Aunt Judy was in the early 60's when she and my Uncle Jerry along with my grandparents came to Van Wert to visit. She had the longest, most beautiful hair I had ever seen. As I got older, my grandparents, parents and my sister and I would go to visit her and her family in Michigan. As so many have mentioned, she was a generous and fun person who made everyone around her feel warm and welcomed. I will remember my Aunt Judy for her kindness, unconditional love, her ability to make even the toughest situations tolerable and most of all her ability to laugh. Today she walks in heaven with so many who loved her and went before her. I can see them all sitting around the kitchen table now, drinking their coffee, joking and laughing##imported-begin##Michelle (Shelly) Sadoris Quilter##imported-end##
