“ I meet Lori through my sister Michelle. Lori was such a loving and caring person. She would always put other people first. Lori was excited to move to South Carolina to spend time with her family there. Although, sad to move from her sister and niece in the VA area. Life was cut to short. We will miss her graciousness. Prayers continue for her whole family near and far. Peace be with you all.

“ Lori was my boss when we both worked at Carderock and we retired at the same time. We had the most interesting conversations in her office at the end of the workday. She will be deeply missed. Thoughts and prayers to her family.

“ Lori called me when she was still living in Virginia. We hadn't really talked since we in our 20s, so she filled me in on all the events in her life. She sounded really good about where her life was headed and how she hoped to move to South Carolina. She was really pleased to have the love of her kids and family. I'll remember her rebel spirit fondly.
