“ Dear Ann:

On behalf of the staff of Greenville Internal Medicine and myself, I would like to extend our heartfelt condolences to you and your family during your time of loss. My staff and I always thought a lot of Mack and you both, and it was a privilege to participate in Mack's and your life during the time we had you as patients. My nurse remembered Mack and when she saw his obituary, she called me to let me know. I just wanted to let you know that our thoughts and prayers are with you and that we appreciated our time together with the both of you . We all carry little pearls with us that are pieces of all the encounters from the people who we impact and who have impacted our lives. My staff and I still treasure those pearls which represent our moments we shared with you both, and I hope that God will give you peace as you take pause to part only for a while from your life mate. I hope you can take comfort in the fact we will all meet again one day and the part of us that lives forever will never be apart from those friends and family who treasure us. May God bless and keep you and your family, and give you peace.

With warmest regards,

Barry C. Blackston, MD and the entire staff of Greenville Internal Medicine##imported-begin##Barry C. Blackston, MD,##imported-end##

“ *Dear Ann and Family,*
I wanted to say how sorry I am to hear of Mack's death. He was a great guy and most of all ,a genuine man. I don't know too many men that you can say that about. Mack was 100%.
Mack was the first person I met when I joined Pebble Creek Country Club. He made me feel welcome the first time I played golf with his group. He never failed to take time to go out of his way to make you feel important or that you were his friend.
He will be missed by many and I hope his memory stays around for a long time.
