“ Marshall was my best friend in my childhood, he was the only person I have ever considered as a best friend. Our parents travels his to Canada, mine to Germany, separated us and the pace of life kept us from ever getting back together. Throughout my life I have reflected on our time as kids and the friendship we shared, and he was and always will be my best friend. Into God's presence my friend, I will see you there and will rejoice together as children once again. Love Michael Pridgeon

“ Angie and members of the Read family, I am saddened to hear about the passing of Marshall. I cannot imagine how you must feel. I remember the first time I met him with you many years ago and how it felt like I had known him for a long time. He had a magical personality especially when we made a connection to music. May you draw strength from God and feel His presence during this difficult time. My deepest condolences,
