“ Mike was a good friend until Clemson steered him wrong. He was one of my rescue divers, racing buddies and I helped him build and install all sorts of things. Helped him figure out the problem with a cotton picker they had built in Clemson. Wish he could have stayed in the area. ! Use to spend weekends with us at my house when he would come home from Clemson!

“ Mike was a great friend and mentor to me. When my Dad passed away, he helped to fill that void in my life. He was a good Christian man. He'll be missed.
