“ Hey Dauch,

I always loved your machine-gun laugh, and it always made me laugh. Remember the BB gun fights that you and Phil Ruggles, Jim Jones, Bill Wenzel and Mike Plankenhorn and I used to have until I almost put Phil Ruggles eye out-game over for good! It's been a long time since I have seen and talked with you, but you were always a good friend and I will miss you terribly. i will see you someday again in the place I want to be. God Bless your family and give them peace.

“ Dear Susie - We heard the news today just before church, and there were many tears. People in Stow remember your dear Bob ("Bobby" as you always said), and have good and special thoughts about all he did for this community. He was a dear friend of Jeannine's, as they worked together for so many years, and of course a special classmate for me. God bless you and your sons, and have peace as time will allow.
