“ Roger and Jane were good friends for a long time and our families were together often when the kids were young. When they moved to SC, we did not see them much but they were often in our thoughts. So sorry to hear of Roger's passing. Our condolences to Jane and the girls.

“ Roger and I first met while I was working in the special machine division of Cincinnati Milacron. Roger was the mechanical engineer responsible for many of the machine designs. He was always an upright and honest man. His family was always top priority. When we both moved to SC, our families became close. I will always miss Roger and his dry wit.
