I was shocked to discover your passing. I am still having trouble grasping this. We shared some special moments a very, very long time ago. I will hold those memories close. I often wondered where life took you. It is ironic that I had a dream of you a week or so ago. That dream prompted my search for you and I found this sad news. But, I also discovered that you have a beautiful family and that gives me peace. I know that they miss you so much. My thoughts and prayers are with all of you. Steve was a kind, smart, loving and giving man. This world will be a little more empty without him. May you Rest In Peace my friend. I will see you again someday ❤️
