“ Remember Teddy as one of the smartest computer guys I ever met and someone who was always willing to try anything. Here he is in full bronco busting form down in Texas. He will be missed but certainly is in a good place in heaven. Bill and Margaret

“ Ron and Julie - I so fondly remember Ted from when you guys got married. I laugh when I think we (Ted and I) darn near burnt our eyebrows off putting together our grille (he didn't throw me under the bus!) or watching Daffy Duck cartoons with him. Short form is when I think of him I smile. I wish you all peace at this difficult time.
